**Policy Document On
Environment and
Energy Usage**

The Environment and Energy Usage Policy of Bharati Vidyapeeth Collage of Fine Art, Pune, aims to systematically manage energy to minimize its environmental impact. The policy seeks to explore renewable energy resources to reduce the burden on the government and find substitute natural resources to address the energy crisis.

This policy is mandatory for all components of the institution and applies to all stakeholders and activities. It aims to integrate efficiency and environmental awareness into daily activities, fulfilling our responsibility and commitment to conserving natural resources and limiting their use. The Environment Club, an official platform for environmental awareness, will drive green initiatives and conduct literacy programs to save energy and protect the environment.

Policies:

Short Term

- Regularly assess energy usage and its environmental impact.
- Monitor and report CO2 emissions from transportation, including vehicles.
- Reduce local air pollution emissions by promoting the use of environment-friendly vehicles, bicycles, public transportation, and pedestrian-friendly roads.
- Replace conventional bulbs with LED bulbs campus-wide to save energy.
- Organize tree plantation drives.
- Continuously improve energy consumption through additional measures.
- Ensure the availability of necessary resources to achieve objectives.
- Encourage the use of advanced technology to minimize energy consumption, atmospheric emissions, and noise, especially in vehicle fleets.
- Engage in dialogue with government agencies, municipal corporations, the Affiliating University, and local organizations to collaborate on environmental, energy efficiency, and sustainable development initiatives.
- Enhance employees' and students' environmental knowledge and skills to improve environmental performance.
- Provide information and training on energy-saving measures.
- Offer opportunities for employees and students to engage in initiatives that contribute to environmental protection.

Long Term

- Develop a systematic waste management mechanism.
- Implement rainwater harvesting units.
- Develop and maintain an environmental management system compliant with ISO 14001 and an Energy Management System based on ISO 50001.
- Monitor and respond to emerging environmental and energy issues, aiming to strengthen the commitment to sustainability.
- Train employees and students through the Environment Club to become "Go Green Specialists" and partners in annual tree planting initiatives.
- Install photovoltaic solar panels for alternate energy generation.

This policy will be communicated to the students and employees via internal communication channels, and will be made available to all the stakeholders on the institutional website. The Environment and Energy Policy, objectives and targets will be reviewed on a regular basis by the Bharati Vidyapeeth's College of Fine Art Committee Head and its members under the guidance of the Principal of the college.
