Sub of competition: Essay- The dream of cleanliness comes true

ULB Code: 802814

The dream of cleanliness comes true.

Cleanliness can be defined as a good habit of maintaining good health, hygiene and tidiness of oneself and the surrounding.

As kids we've often been told by parents about keeping our belongings in place, neat, clean and organized. This morality has been imbibed in us since a very tender age and this habit will stay with us forever. Along the way as we meet new people, they too reflect this habit on us.

Though when we talk about cleanliness, we only pay attention to keeping us and our homes clean often neglecting the cleanliness of our environment and surroundings. If the environment is not kept clean, it makes a person feel unpleasant. It can also cause diseases and epidemics, irritation to mind and give rise to psychological problems. If our streets and public places are not clean, it can harm our feeling of pride and self-respect.

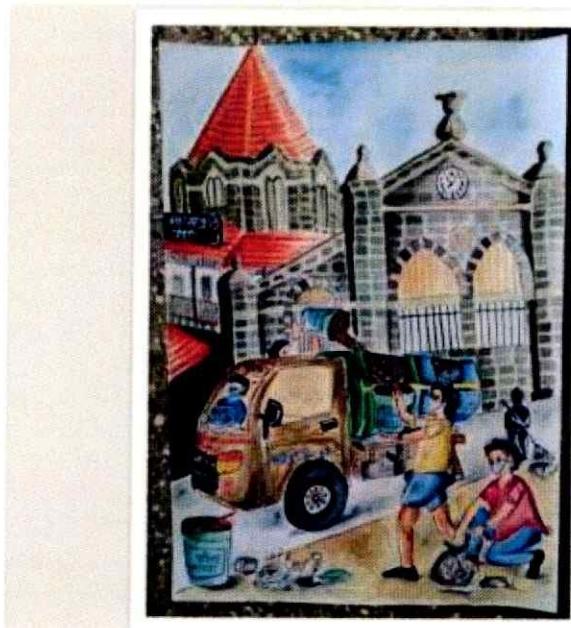

The Indian Government successfully executed Mahatma Gandhi's vision of clean India under the scheme of Swachh Bharat Abhiyan which is considered to be the most successful cleanliness campaign in the country. To turn this campaign into a national pride, every citizen should co-operate and responsibly work in unison to keep our surroundings clean.

It is up to us to make this a reality for our country, and we shall pledge to do this godly act
